

Mathematics

ISAT Goal: Estimation and Computation

Subskill: Exponents & Scientific Notation

Student List:

Student List:

Student List:

RIT 241-250:

- Understand and use the rules of exponents, including negative exponents

RIT 231-240:

- Evaluate expressions using the order of operations that include exponents; Find products by applying rules for exponents

RIT 201-230:

- No skills listed

RIT 191-200:

- Identify the base and the exponent of a given numerical expression and calculate its value

RIT 190-Below:

- No skills listed
