

Mathematics
ISAT Goal: Algebra
Subskill: Quadratic Formula and Equations

Student List:

RIT 260-Above:

- No skills listed

RIT 251-260:

- Solve a quadratic equation by factoring or completing the square; Know the quadratic formula and demonstrates its proof by completing the square; Identify discriminant and roots; Use the quadratic formula to find the roots of a second-degree polynomial and solve quadratic equations; Graph quadratic functions and know that their roots are the x-intercepts

RIT 250-Below:

- No skills listed
